

Bi-State Chapter

ASHRAE American Society of Heating, Refrigeration, and Air Conditioning Engineers

MEETING NOTICE

Wednesday February 8, 2012

Research Promotion

MAIN PRESENTATION: Analysis of Bills by James Coyle of ARCADIS. A complete analysis of a facility's energy bills requires a detailed knowledge of the rate structures in effect for the facility. To determine accurate costs of operating individual pieces of equipment, separate energy bills into their components. E.g. demand charge and energy charges for the electric bill. This breakdown also allows more accurate savings calculations for Energy Management Opportunities (EMOs) such as high-efficiency equipment, rescheduling of some on-peak electrical uses, etc.
