### MEETING NOTICE

**Wednesday November 9, 2011**

#### **Sustainability**

**MAIN PRESENTATION:** NYSERDA Programs. Harris Schaer will be presenting on current funding opportunities for various NYSERDA Programs.

**TECH SESSION:** Analysis of Utility Bills. James Coyle of Malcolm Pirnie will be presenting on utility bill analysis. A complete analysis of a facility's energy bills requires a detailed knowledge of the rate structures in effect for the facility. To determine accurate costs of operating individual pieces of equipment, separate energy bills into their components. E.g. demand charge and energy charges for the electric bill. This breakdown also allows more accurate savings calculations for Energy Management Opportunities (EMOs) such as high-efficiency equipment, rescheduling of some on-peak electrical uses, etc.
